Do ASQ screenings automatically get added to ChildPlus?

Richard Woolf - 2026-08-18 - [ASQ Online](#)

ASQ in ChildPlus

There is no automated connection between the ASQ database and the ChildPlus database.

Whenever a new screening gets added to ASQ, you will need to enter the date the screening occurred in the child's ChildPlus account as an EVENT in the **EDUCATION** tab.

There is no need to attach a copy of the screening in ChildPlus because we already have this in ASQ.
