## How Do I Change My Menu Layout to View Tabs in ChildPlus Online (instead of Drop-down Menus)?

Richard Woolf - 2024-07-25 - [ChildPlus](#)

### ChildPlus Online Menu Layout Options

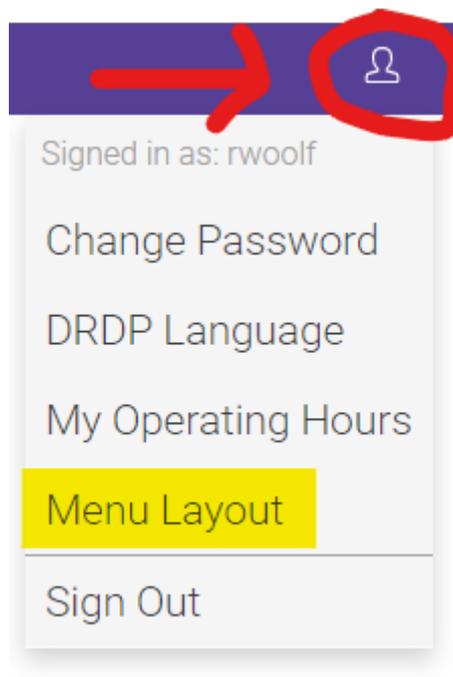

If you are accessing ChildPlus Online via a computer or large tablet, then you have the option of seeing tabs across the screen similar to how they are shown in the desktop version. But if you are accessing ChildPlus Online from a mobile phone or tablet with a smaller screen then it will revert back to using dropdown menus.

If you are using a larger screen (such as a computer monitor) and you are not seeing the tabs across the top, then you can go into your settings and change your MENU LAYOUT settings to the Traditional option.

### Menu Layout Settings

The SETTINGS for ChildPlus Online can be found by clicking on the person icon in the top right of the screen. Then selecting MENU LAYOUT.

Then select TRADITIONAL from the list and click on OK.

## My Menu Layout

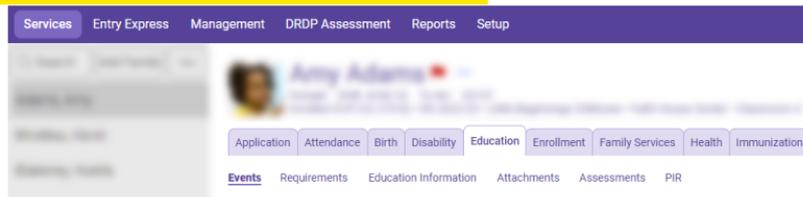

This setting allows you to choose the layout of the menus for larger screens such as desktop computers and laptops. On smaller screens, such as tablets and phones, the Drop-down layout will always be used.

Menu Layout for Larger Screens:

- Drop-down (menu choices are hidden until you open the drop-down)

- Traditional (menu choices are always visible across the screen)

OK
