How to Access ChildPlus Training Or Practice Databases

Richard Woolf - 2025-08-18 - [ChildPlus](#)

Accessing ChildPlus Practice / Training Databases:

Note: You cannot connect to the Training Database until you have logged in at least ONCE with the password you created for yourself.

FOR CHILDPLUS ONLINE:

1. Click on the "Connect to Practice Database" link on login page.

ChildPlus

Username

Password

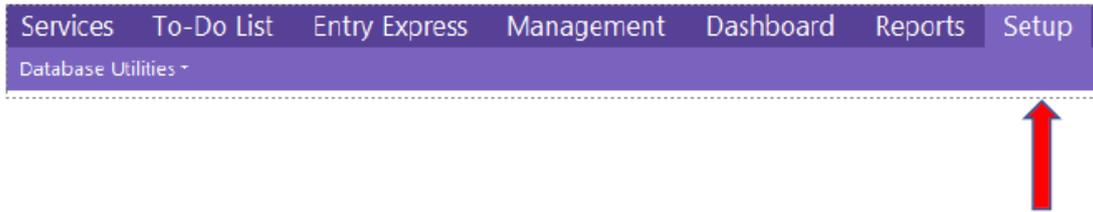

Sign In

Forgot password?

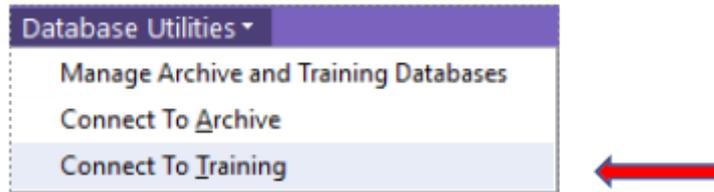

Connect to Practice Database

FOR CHILDPLUS DESKTOP:

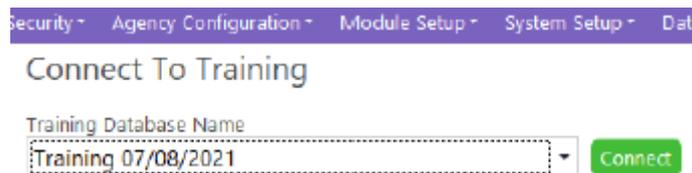

1. When you open ChildPlus DESKTOP, you should now see a Setup Tab, with the Database Utilities option.

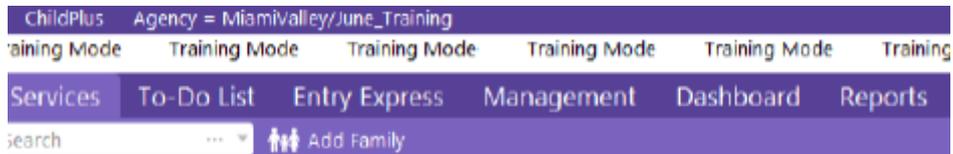

2. Select Connect to Training

3. In most cases you do not need to select from the dropdown - the most recently-created training database will automatically appear in the window. That is the training database to use unless told otherwise. Just click on **Connect**.

4. At that point, ChildPlus will log you out and open a new login window. Type your password and sign in. You should now see "Training Mode" across the top of your ChildPlus Screen.

5. To **exit** the training database and return to live data, you must exit from ChildPlus (click the x in the top right corner) and then open ChildPlus again from the ChildPlus icon. When you enter your password and Sign In, you will be back in the live database.
