Where is My Teams Meeting Recording Saved?

Richard Woolf - 2026-08-18 - [Microsoft 365 / Outlook / Word/ Excel/ Authenticator](#)

Where to find your Microsoft Teams Meeting Recordings

Teams recording file locations for teams meetings and channel meetings and how to share teams meeting recordings with other users

Search for the RECORDING sub-folder in your OneDrive folders.

NOTE: Recordings may automatically get removed after a period of time. So if you want to save them, it is advised to move them to a different folder (such as RECORDED (SAVED)).
